# ABOUT AMERICAS POTASH

Americas Potash S.A. (APPSA) is a Peruvian mining company, a subsidiary of the GrowMax Resources Canadian company.

Focused on exploration and production of phosphate and potassium-rich brines on concessions granted by the Peruvian State, located in the Bayovar project, Sechura Desert, Piura department.

The company's vision is to become a leading producer of phosphate and potash fertilizers in Peru.

# AMERICAS POTASH CULTURE

Americas Potash is committed to providing efficient and responsible natural resource extraction, for the mutual benefit of the company, community and other stakeholders.

## MISSION

To produce phosphate and potash by applying best mining practices and managing financial, social and environmental risks, as well as obligations and opportunities for the long-term benefit of our stakeholders.

## VISION

To become a leading producer of phosphate and potash fertilizers in Peru.

# VALUES

## INTEGRITY

It is a company policy to promote high standards of integrity, through the management of business affairs in an honest and ethical manner. The company's integrity depends on the honesty and sense of justice and integrity of each of the collaborators, which is reflected in the performance of their daily tasks.

## RESPECT

Cultivate and promote respect for the ideas, customs and traditions of all the members of the organization and stakeholders interacting with Americas Potash.

## EXCELLENCE

Apply responsible and serious practices managed by all members of the organization in order to achieve excellence.

## OUR **PROJECTS**

The operations are currently focused on exploration and development of phosphate and potassium-rich brine resources on the Bayovar concessions.

### POTASSIUM-RICH BRINE

The first considerable production will be based on the potassium-rich brine processing to produce fertilizers. In addition, sodium chloride (industrial and/or table salt) will be derived from this operation as a by-product.

#### PRODUCTION

Potassium salt from brine using a solar evaporation pond technology.

#### LOCATION

It is probable that the operation will be located in Concession 6 of the Bayovar project.

#### 20 KM

Distance between Sechura and other brine operations.

#### TRADE

Our production of brine and other industrial products will be sold primarily in the local market.

#### DEVELOPMENT

Our business will create jobs and new opportunities for the surrounding communities.

## PHOSPHATES

The potential to exploit the phosphate rock resource on our concessions is being evaluated, especially focusing on Bayovar 7.

### EXTRACTION

Exploitation of phosphate rock resource.

### LOCATION

Concession 7 of the Bayovar project, in an arid environment.

**43 KM**

Distance between Bayovar 7 and the city of Sechura.

## OPERATIONS PHASE

Potassium operations are in the preoperative phase, while phosphate operations continue in exploration.

### TRADE

The production will be intended for export and for local and regional markets.

### STRATEGIC LOCATION

Bayovar concessions are located near well-developed infrastructure, including the access to export sea ports and main roads.

**82,195 HECTARES**

Total area of concessions 5, 6, 7 and 8 of the Bayovar project.

# SUSTAINABILITY SOCIAL RESPONSIBILITY

Based on the company's Social Responsibility policy, we contribute to the development of the communities located in the surroundings of our projects, seeking that the success of our business is reflected in the improvement of quality of life of the population closest to the project, so that our company and the communities continue to **grow together**.

THIS WILL BE MAINLY ACHIEVED AS FOLLOWS:

## 1 CREATING JOBS

+ STRENGTHENING PRODUCTION ACTIVITIES RELATED TO OUR BUSINESS.

## 2 IMPLEMENTING DEVELOPMENT PROJECTS

FOR THE REGION TO ATTAIN THREE OF THE SUSTAINABLE DEVELOPMENT GOALS (SET BY THE UNITED NATIONS IN 2015; THE OTHERS ARE TRANSVERSAL TO OUR MANAGEMENT.)

HEALTH AND WELFARE  
(O.D.S. 3)

QUALITY EDUCATION  
(O.D.S. 4)

SUSTAINABLE PRODUCTION  
(O.D.S. 12)

# HEALTH, SAFETY AND ENVIRONMENT

We believe that our business and operations may and should be carried out safely for our employees, contractors and surrounding populations.

We have a solid commitment to the development of a modern and sustainable mining activity, which makes us to care and preserve the environment by complying with applicable national laws and international standards.

We strive to minimize the impacts that our projects may generate, that's why we are taking special care to create the best health conditions.
